

JAMIE LEVINER

Senior Software Engineer

EXPERIENCE

ACS TECHNOLOGIES - Senior Software Engineer

April 2021 - present

bullet: "Front-end lead on the development of a" } }
greenfield business intelligence tool. This includes
architectural planning, estimation of effort, and
project development where optimized performance
[{ ".is a requirement

ACS TECHNOLOGIES - Software Engineer

July 2017 - April 2021

bullet: "Create multiple single-page applications" } }
that leverage modern functionality (code-splitting,
etc.) using Vue.js, Vue CLI, Vuex, Vuetify, and other
various tools." }, { "bullet": "Frequently handle
integrations between internal projects written in
Vue.js/modern JavaScript, C#/.NET MVC, and
Golang as well as with third-party services and
external API's." }, { "bullet": "Create tools to standardize
and improve developer experience and accelerate
the rate of development (enum/JavaScript generator,
dynamic link builders with permissions levels set via
JWT, etc.)." }, { "bullet": "Developed an SSO
authentication layer to provide a centralized
integration point for internal and external products
both future and present." }, { "bullet": "Designed and
created a component library using Vue.js SFC's,
Rollup, npm, and Github Packages that generates
npm packages and is being used in multiple projects
with more to come." }, { "bullet": "Develop, design,
implement, and maintain new and existing CRUD API
endpoints using Golang." }, { "bullet": "Designed and
implemented new databases and schemas using
PostgreSQL for account management and
authentication across multiple products." }, { "bullet":
"Regularly meet with the UX design team to assess
designs for technical feasibility, identify and step
through user workflows, scope project requirements,
and estimate level of effort (LOE)/required working
hours before the active phase of development." }, {
"bullet": "Designed and developed a tool that is used
