

# JAMIE LEVINER

Senior Software Engineer

## EXPERIENCE

### SENIOR SOFTWARE ENGINEER ▽ ACS TECHNOLOGIES

April 2021 - present

Front-end lead on the development of a business intelligence tool. This includes architectural planning, estimation of effort, and project development where optimized performance is a requirement <

### SOFTWARE ENGINEER ▽ ACS TECHNOLOGIES

July 2017 - April 2021

- Create multiple single-page applications that leverage modern functionality (code-splitting, etc.) using .Vue.js, Vue CLI, Vuex, Vuetify, and other various tools <
- Frequently handle integrations between internal projects written in Vue.js/modern JavaScript, C#/.NET MVC, and Golang as well as with third-party services and external API's <
- Create tools to standardize and improve developer experience and accelerate the rate of development .(.enum/JavaScript generator, dynamic link builders with permissions levels set via JWT, etc <
- Developed an SSO authentication layer to provide a centralized integration point for internal and external products both future and present <
- Designed and created a component library using Vue.js SFC's, Rollup, npm, and Github Packages that generates npm packages and is being used in multiple projects with more to come <
- .Develop, design, implement, and maintain new and existing CRUD API endpoints using Golang <
- Designed and implemented new databases and schemas using PostgreSQL for account management and authentication across multiple products <
- Regularly meet with the UX design team to assess designs for technical feasibility, identify and step through user workflows, scope project requirements, and estimate level of effort (LOE)/required working hours before the active phase of development <
- Designed and developed a tool that is used as a sandbox for rapid prototyping and also helps in facilitating UX/UI A/B testing <
- Generate and present reports around team progress and project development status to management and stakeholders at the close of each sprint <
- Regularly host and present at open invitation technical talks with an attendance of 20-30 representing individuals from multiple departments with varying levels of technical experience <
- Mentor new and existing developers on a daily basis. Help lead a front-end developer community of practice with over 30 members <
- Introduced updated testing procedures (BDD) and implemented tools to generate tests by translating .Cucumber's Gherkin syntax <

Oversee and support contract work on a variety of projects such as a website builder and publisher, a streaming platform, and a portal to assist and provide documentation to a high-volume .NET web application with xxx unique visitors each month <

.(Provide leadership as a subject matter expert (SME) in analytics and styling languages (CSS/SCSS/LESS <

## JUNIOR SOFTWARE ENGINEER ▽ ACS TECHNOLOGIES

May 2015 - July 2017

Developed, documented, and maintained a library used globally by a high-volume .NET web application with 50+ jQuery plugins and over 40 Vue.js components for 5+ years resulting in improved code stability and code reusability <

Migrated all global front-end components, plugins, and styles to the cloud from a high-volume .NET web application with over 600k unique visitors per month <

Actively participated (more than a few times) in all phases of the software development life cycle, from architectural planning to development and testing to release and maintenance <

Collaborate with stakeholders to develop clear, unambiguous technical requirements and establish a consistent feed-back loop during all phases of the development life cycle <

.Optimized queries and document/subdocument/key indexing strategies in Couchbase <

Standardize, develop, document, and maintain a flexible, extensive design system that promotes design consistency, reduces the need for boilerplate code, and prevents code duplication <

Redesigned a reporting engine to mitigate serious performance issues and increase its capacity to generate client data in multiple formats <

## EDUCATION

B.S. IN COMPUTER SCIENCE, MINOR IN APPLIED MATHEMATICS

Francis Marion University, Florence, SC 29501

## SKILLS

JavaScript <	jQuery <
VueJS <	CSS <
SCSS/LESS <	C#/ASP.NET MVC <
Golang <	Intercom <
PostgreSQL <
