

# JAMIE LEVINER

Senior Software Engineer

## EXPERIENCE

### ACS TECHNOLOGIES - Senior Software Engineer

April 2021 - present

bullet: "Front-end lead on the development of a" } }  
greenfield business intelligence tool. This includes  
architectural planning, estimation of effort, and  
project development where optimized performance  
[ { ".is a requirement

### ACS TECHNOLOGIES - Software Engineer

July 2017 - April 2021

bullet: "Create multiple single-page applications" } }  
that leverage modern functionality (code-splitting,  
etc.) using Vue.js, Vue CLI, Vuex, Vuetify, and other  
various tools." }, { "bullet": "Frequently handle  
integrations between internal projects written in  
Vue.js/modern JavaScript, C#/.NET MVC, and  
Golang as well as with third-party services and  
external API's." }, { "bullet": "Create tools to standardize  
and improve developer experience and accelerate  
the rate of development (enum/JavaScript generator,  
dynamic link builders with permissions levels set via  
JWT, etc.)." }, { "bullet": "Developed an SSO  
authentication layer to provide a centralized  
integration point for internal and external products  
both future and present." }, { "bullet": "Designed and  
created a component library using Vue.js SFC's,  
Rollup, npm, and Github Packages that generates  
npm packages and is being used in multiple projects  
with more to come." }, { "bullet": "Develop, design,  
implement, and maintain new and existing CRUD API  
endpoints using Golang." }, { "bullet": "Designed and  
implemented new databases and schemas using  
PostgreSQL for account management and  
authentication across multiple products." }, { "bullet":  
"Regularly meet with the UX design team to assess  
designs for technical feasibility, identify and step  
through user workflows, scope project requirements,  
and estimate level of effort (LOE)/required working  
hours before the active phase of development." }, {  
"bullet": "Designed and developed a tool that is used
