

# JAMIE LEVINER

Senior Software Engineer

## EXPERIENCE

### ACS Technologies - Senior Software Engineer

April 2021 - present

Front-end lead on the development of a greenfield business intelligence tool. This includes architectural planning, estimation of effort, and project development .where optimized performance is a requirement

### ACS Technologies - Software Engineer

July 2017 - April 2021

Create multiple single-page applications that leverage modern functionality (code-splitting, etc.) using Vue.js, .Vue CLI, Vuex, Vuetify, and other various tools

-----  
Frequently handle integrations between internal projects written in Vue.js/modern JavaScript, C#/ .NET MVC, and Golang as well as with third-party services and external .API's

-----  
Create tools to standardize and improve developer experience and accelerate the rate of development (enum/JavaScript generator, dynamic link builders with .(permissions levels set via JWT, etc

-----  
Developed an SSO authentication layer to provide a centralized integration point for internal and external .products both future and present

-----  
Designed and created a component library using Vue.js SFC's, Rollup, npm, and Github Packages that generates npm packages and is being used in multiple projects .with more to come

-----  
Develop, design, implement, and maintain new and .existing CRUD API endpoints using Golang

-----  
Designed and implemented new databases and schemas using PostgreSQL for account management
